

Succession InsightsSM

Executive Bench delivers advanced analytics through our SuccessionSM platform, displaying vital, timely and relevant succession information. By leveraging these insights, organizations are empowered to create reliable, future-oriented succession plans.

Succession InsightsSM

Succession Insights is an advanced technology platform that synthesizes your internal data, alongside Executive Bench analytics, and compiles it for real-time planning and decision-making.

Individual Insights

Review all the relevant data around a leader's track record, skillsets, capabilities, aspirations, and more.

Role Insights

Explore succession plans for your critical roles, make dynamic changes, and track scenarios and action plans.

Group Insights

Examine any group of individuals in the aggregate. Look at common strengths, weaknesses, and opportunities and compare across groups. Identify opportunities and pinpoint where investment in development is needed.

The Value of Succession InsightsSM

- 1 An integrated view that brings data together in a single platform.
- 2 A system to flag critical talent areas to keep your succession discussions focused on the areas that matter most.
- 3 An interactive experience that encourages a holistic view of leaders and challenges long-held assumptions.
- 4 A targeted way to visualize diverse talent and move them through the pipeline with more intentionality.
